**Fraternal ‘Umbrella’ Organizations Unanimously Support  
New Anti-Hazing Legislation**

*Rep. Patrick Meehan, R-PA., and Rep. Marcia Fudge, D-Ohio, introduce the  
Report and Educate About Campus Hazing (REACH) Act*

WASHINGTON — Officials from the National Panhellenic Conference (NPC), North-American Interfraternity Conference (NIC), National Pan-Hellenic Council, Inc. (NPHC), National Association of Latino Fraternal Organizations (NALFO), National Asian Pacific Islander Desi American Panhellenic Association (NAPA), National Multicultural Greek Council (NMGC), and Association of Fraternity/Sorority Advisors (AFA), issued the following statements today endorsing anti-hazing legislation introduced by Rep. Patrick Meehan, R-Pa., and Rep. Marcia Fudge, D-Ohio.

The Report and Educate About Campus Hazing (REACH) Act would require colleges and universities to disclose information about hazing on campus in their annual crime reports. It would also require any college or university that accepts federal funding to provide hazing prevention education to all students.

This united support for the REACH Act comes from all the fraternal “umbrella” organizations, which collectively represent more than 140 fraternities and sororities, as well as the association that provides development to professionals who work with fraternities and sororities.

**Statement from the National Panhellenic Conference**

“Students have long had access to accurate and timely information about security issues on campus, and they deserve the same transparency about incidents of hazing,” said Dani Weatherford, NPC executive director, on behalf of the organization’s Board of Directors.

“No single piece of legislation can eradicate hazing on campus, but it can ensure that students, administrators and parents have access to the tools and information they need to hold organizations and campuses accountable. The battle against hazing is not a problem for fraternities alone, but a call-to-action for all campus-based organizations – including the sorority community. We stand with elected leaders, campus officials and students nationwide as committed partners in this fight.”

**Statement from the North-American Interfraternity Conference**

“Research shows hazing prevention is best accomplished through comprehensive measures, including proactive education, transparency and accountability around standards,” said NIC President and CEO Judson Horras. “The North-American Interfraternity Conference backs the REACH Act because it focuses on these critical strategies. NIC member fraternities stand united in providing positive, hazing-free, meaningful rites of passage that strengthen and develop young men.”

**Statement from the National Pan-Hellenic Council**

“The Council of Presidents of the National Pan-Hellenic Council commends the bipartisan leadership of Rep. Pat Meehan and Rep. Marcia Fudge and supports the objectives of the REACH Act,” said Dr. Paulette C. Walker, Chair of the NPHC Council of Presidents and National President of Delta Sigma Theta Sorority, Inc.

“The organizations of the NPHC are resolute in the commitment to nurture the ideals of sisterhood and fraternalism and uphold the dignity and self-respect of all persons seeking membership in the respective organizations,” said Jennifer Jones, NPHC president. “Hazing is antithetical to this commitment. NPHC organizations collaborate with universities regarding hazing concerns and believe that university-sponsored hazing education and annual reporting of hazing incidents will be important tools in a more comprehensive and proactive approach to combat hazing.”

#### Statement from the National Association of Latino Fraternal Organizations

“Many of our members—first- and second-gen students—are sent to college by parents unfamiliar with the traditions that occur at some universities. Our students look for places of belonging and trust that universities are doing their best to prevent harm to their students,” said NALFO President Maria Diaz. “Through our shared standards and membership requirement for each organization to have clear anti-hazing policies, NALFO strives to assure that each student is able to participate in our organizations’ traditions in a safe and supportive way. The REACH Act will arm our students and parents with access to information that will help them make an informed decision on what institution to entrust with their well-being.”

#### Statement from the National Asian Pacific Islander Desi American Panhellenic Association

“NAPA strictly opposes hazing and any activities that do not contribute to the positive development and welfare of potential new members and initiated members,” said NAPA’s Executive Board. “In solidarity with our fellow umbrella organizations, we believe the REACH Act will support our commitment to empowering our member organizations to operate with the safety and sustainability of their members as a top priority.”

#### Statement from the National Multicultural Greek Council

“The National Multicultural Greek Council organizations each dedicate substantial time and resources to improving the lives of individuals and bettering their communities,” said NMGC President Jen Rencher. “Accordingly, a membership intake process that utilizes and/or condones acts of hazing is contrary to the mission and purpose of the NMGC and its Member Organizations. As such, we support the REACH Act for providing transparency about hazing incidents and education on how to combat it for the campus community.”

#### Statement from the Association of Fraternity/Sorority Advisors

“Hazing on college campuses is a complex problem and addressing it requires a multi-faceted approach,” said Lynda Wiley, executive director of AFA. “A combination of information, education and accountability is necessary to eliminate this behavior. Including hazing information in Clery reporting will help students and parents as they ask important questions related to joining a variety of organizations, including fraternities and sororities. AFA is committed to continual professional education for our members and would provide training around implementation of the REACH Act if it becomes law.”
